Introduction and background

1. The applicant seeks procedural review of a work capacity decision made by the Insurer on 4 December 2013. The decision advised the applicant that his weekly payments of compensation would cease. The applicant sought internal review and Internal Review Decision (IRD) was dated 7 February 2014. He then sought Merit Review on or about 6 March 2014 and the Authority issued the Merit Review recommendation on 28 July 2014, some 144 days later,¹ upholding the work capacity decision. The applicant made application to this office on 27 August 2014.
2. I am satisfied that the applicant has made the application for procedural review in the proper form and within time.
3. The applicant sustained injury to his left shoulder during the course of his employment as a petrol tank driver. The accepted date of injury was

¹ Guideline 10.14 of the *Guidelines for work capacity decision Internal Reviews by insurers and Merit Review by the WorkCover Authority (Review Guidelines)*, which came into effect on 11 October 2013 states that "The Authority will write to the worker and insurer as soon as practicable and preferably within 30-days of receiving the application advising of the outcome of the merit review."

7 March 2003. Subsequent to the injury the applicant obtained employment as a hospital assistant.

4. The applicant was in receipt of weekly payments immediately before 1 October 2012. Accordingly *Clause 8 of Part 19H of Schedule 6 to the Workers Compensation Act 1987* (the 1987 Act) required the Insurer to conduct a work capacity assessment.
5. *Section 44A* of the 1987 Act provides that a work capacity assessment must be conducted in accordance with the *WorkCover Work Capacity Guidelines (Guidelines)*.
6. The relevant version of the *Guidelines* came into effect on 27 September 2012. That publication stated that the *Guidelines* provide instructions and guidance to Insurers regarding the appropriate and consistent application of work capacity assessments and decisions.
7. Once the Insurer has conducted a first assessment then the Insurer is required to make a work capacity decision. Where that decision involves a reduction in the weekly benefits payable to the injured worker then the Insurer is required to give proper notice to the worker (*Section 54(2)(a)* of the 1987 Act).

Submissions by the applicant

8. *Section 44(1)(c)* of the *Workers Compensation Act 1987* (the 1987 Act) states that this review is “*only of the insurer’s procedures in making the work capacity decision and not of any judgment or discretion exercised by the insurer.*” The applicant has made various submissions however none of those submissions are relevant to this procedural review.

Submissions by the Insurer

9. The Insurer has not provided submissions in response to the application.

The Decision

10. The relevant *WorkCover Work Capacity Guidelines* with respect to making this work capacity decision came into effect on 11 October 2013.
11. *Guideline 5.3.2* requires the Insurer to ‘state the impact of the decision on the worker in terms of entitlement to weekly payments, entitlement to medical and related expenses and return to work obligations.’
12. *Section 59A(2)* of the 1987 Act states that treatment expenses and related expenses are no longer payable 12 months after weekly payments cease.
13. The present decision advises the applicant ‘you will be entitled to up to 12 months of medical benefits after your wages cease’. The decision does not refer to *Section 59A* of the 1987 Act in any capacity.
14. The decision fails to advise the applicant that his entitlements to medical expenses will actually cease 12 months after the cessation of his weekly payments and also fails to advise as to *Section 59A (3)* of the 1987 Act.
15. *Section 59A(3)* of the 1987 Act states that the applicant may, after the entitlement to compensation for medical expenses ends, become eligible for further payments for medical expenses if the applicant becomes entitled to compensation for weekly benefits at some stage in the future for so long as that weekly entitlement continues.
16. The decision fails to comply with the Guideline.
17. The IRD attempts to rectify this issue by referring to *Section 59A* of the 1987 Act however this is not sufficient to validate the decision.
18. *Guideline 5.3.2* notes that the insurer should advise the applicant that any documents or information that have not already been provided to the worker can be provided to the worker on request to the insurer. The decision advises the applicant that he has already been provided with copies of the documents relied upon to make the decision.
19. The decision fails to comply with the Guideline.
20. On 3 September 2014 the *Workers Compensation Amendment (Existing Claims) Regulation 2014* (the Amendment Regulation) was published. Clause 26 of the Amendment Regulation provides that Part 2 “takes effect on and from 1 October 2012.”

21. Clause 30 of the Amendment Regulation, which is in part 2 and therefore is deemed to have been in effect since 1 October 2012, is in the following terms:

30 Stay of work capacity decisions

- (1) A review under section 44 (Review of work capacity decisions) of the 1987 Act of a work capacity decision made in respect of an existing claim operates to stay the decision that is the subject of the review and prevents the taking of action by an insurer based on the decision while the decision is stayed.
- (2) This clause applies to an internal review under section 44 (1) (a) of the 1987 Act only if the application for internal review is made by the worker within 30 days after the worker receives notice from the insurer of the work capacity decision to be reviewed.
- (3) The stay under this clause operates from the time the application for review is made until the worker is notified of the findings of the review (or the application for review is withdrawn).
- (4) This clause applies despite section 44 (4) of the 1987 Act, which is deemed to be amended to the extent necessary to give effect to this clause.

22. It must follow that the applicant is entitled to the full benefit of the Amendment Regulation and therefore the Insurer should restore the applicant to the payments being received immediately prior to the payments ceasing as a result of the original decision.

FINDING

23. Under the legislation the Insurer can make an assessment of the applicant's work capacity and then a decision about that work capacity, but they must comply with the legislation, the Regulation and the *Guidelines* in order to produce a procedurally correct result. In the current instance there have been breaches of the *Guidelines* which are to be treated as delegated legislation. Accordingly the work capacity decision must be found to be invalid.
